

## DIY Printable Kitty Ear template

This template allows you to cut and sew your own 4" x 3" finished 3 dimensional kitty ear with attached sleeve to hold your ears secure with a 70mm (2.75") snap clip barrette. Your ears will turn inward at a slight angle

Want a reusable clear acrylic template?

cut 2 for back of ears cut 2 for inner ear

Join notches in ear are for instructional purposes only.

*DO NOT notch the fabric*

1. Sew outside edges with right sides facing. (red dotted line)
2. Join center darts to create 3 dimensional shape (blue dotted line with join notches)
3. Turn right side out.
4. Set aside
5. Sew base sleeves together, wrong sides facing (green dotted lines)
6. Hand stitch to attach base along curved (top) edge of finished sleeve (Purple dotted lines)

Best fabric choice for left & right barrette sleeves: non fraying vinyl or leather. Cut right side facing up and sew together wrong sides facing each other. Do not turn inside out after stitching together (green dotted lines) if using other fabric use fray check along all edges
